

Perforated Sheets & Holders

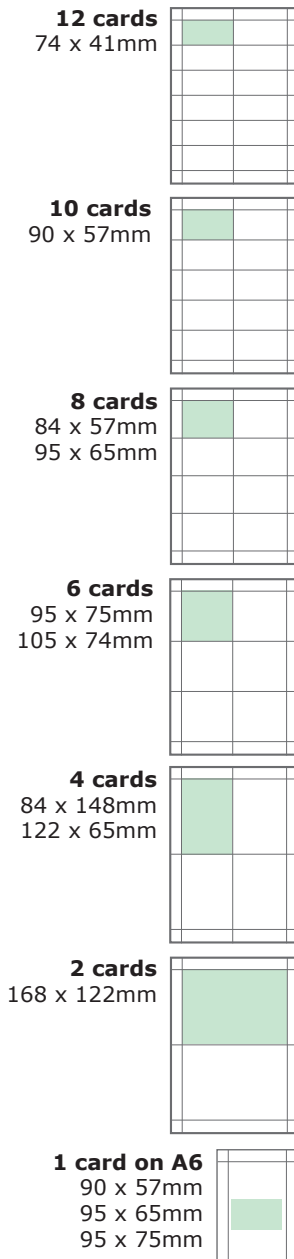

For use with Conference Card Creator software.

Conference Card Creator software is designed to allow for fast, cost effective design, personalisation and production of conference and event badges.

The perforated sheets and card holders designed for use with this software are available in different formats.

Perforated Sheets & Holders

COLOURS

Certain sheets are available in a range of colours.

HOLDERS

Each insert size has a card holder, or choice of card holders, enabling it to be worn and displayed.

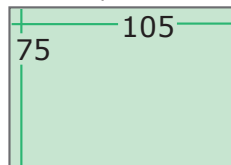

TRANSPORTATION AND STORAGE

Conference Card Caddie is a robust solution for sorting, transporting and distributing badges on-site.
