

Window Badges

Infinitely re-useable with recycled paper inserts –
saving primary resources with IDentilam.

Window Badges

PVC Badges – with paper inserts

Re-using not only saves primary resources, but also significantly reduces the amount of incineration of plastic waste.

We only have one world and it's up to all of us to look after it.

The Window Badges are infinitely re-usable and the recycled paper inserts complete the solution.

The Window Badges can be printed in corporate style using logos and pantone matching with the “thumb” opening allowing easy loading and unloading of the personalised inserts.

Scratch proof.

Fast turn around – ex IDENTILAM factory.

Attachments

Available with either a clip and pin attachment or magnetic holder that is “kind” to clothing.

Inserts

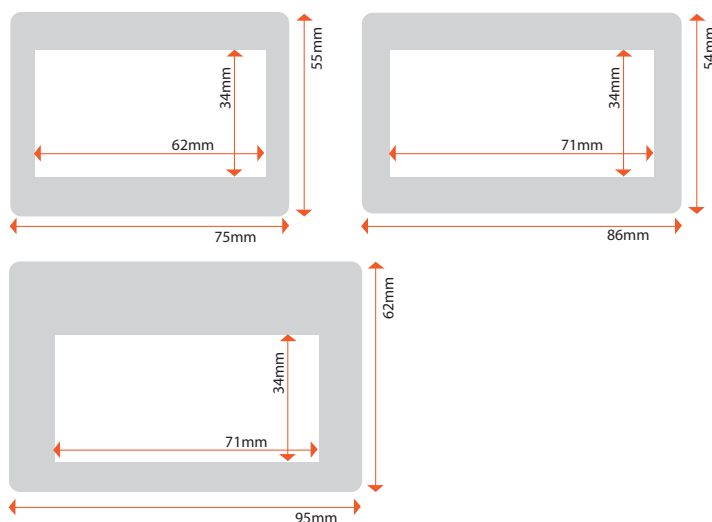

The inserts are supplied on A4 recycled paper sheets, perforated to Window Badge insert size; our Conference Card creator can be used to personalise the inserts or it can be done from Word.

If required these can be pre-printed as part of the badge design before personalisation

Sizes

Availabe in 3 sizes:

- External 75 x 55mm – Internal 62 x 34mm
- External 86 x 54mm – Internal 71 x 34mm
- External 95 x 62mm – Internal 71 x 34mm

Window Badge Accessories

Conference Card Caddie

86 x 54mm Window Badges can be loaded into the IDentilam Conference Card Caddie.

The Conference Card Caddie quite simply makes life more organised. It is a robust, lightweight carrying case that ensures conference badges are transported safely and are easily accessible for fast distribution at your conference venue, for storage, transportation and distribution.

Custom branding

Caddies can be screen printed with a logo. We require high-resolution artwork, disk or same size hard copy.

Size & weight of Caddie:

- 54cm(w) x 38cm(d) x 13cm(h)
- Weight laden 4–5 kilos
- Weight unladen 3.2 kilos

Colours available:

Black, White, Red, Blue, Green, Yellow

Place Settings

Our solid acrylic place settings are complementary to the window badges.

Personalised paper inserts are loaded in to the holders which protects inserts from damage.

The angle of the base plate is adjustable.
